MAR 15 1995

Dear Mr. Katirgis:

Our records indicate that you are the operator of the following well:

1) No. 125 Rosa Unit, 970' FNL & 1190' FEL Sec. 13, T. 31 N., R. 6 W, Rio Arriba County, Lease NMSF-078767. Well has never produced.

Title 43 CFR Section 3162.3-4 requires that the lessee shall promptly plug and abandon, condition as a service well, or condition as a water well, any well on a lease that is not used or useful for the purpose of the lease. Accordingly, you are required to advise this office by Sundry Notice within 30 calendar days of your intent to perform one of the following:

1. Condition the well to a useful function.
2. Temporarily abandon the well.
3. Continued shut-in status.
4. Permanently plug and abandon the well.

The Bureau of Land Management's Definition of a shut-in well is a completion that is physically and mechanically capable of production in paying quantities or capable of service use. The definition of a temporarily abandoned well is a completion that is not capable of production in paying quantities but which may have value as a service completion.

See attached General Requirements for Non-Producing wells on Federal leases.

The 30 calendar days commences upon receipt of this letter or seven days from the date it is mailed, whichever is less. Failure to comply within the 30 calendar days will result in strict enforcement of 43 CFR 3163.1.
