☐ Casing Repair

☐ Water Shut-Off

☐ Final Abandonment Notice

☐ Altering Casing

☐ Conversion to Injection

☒ Other Suspension of Operations ☐ Dispose Water

13. Describe Proposed or Completed Operations (Give Pertinent Details and Dates.)

T.D. = 4022' SLM; Production Casing set and cemented @ 4019' KB.

Operations were suspended for the winter due to U.S. Forest Service Regulations.

Construction of the gas gathering system was also suspended for the winter by the U.S. Forest Service.

Due to the classification of the Mexican Spotted Owl as an endangered species, construction of portions of the gas gathering system has been delayed, beyond our control, pending a decision by the Fish and Wildlife Service.

Completion of the well will comply with the approved APD when operations are continued.

Therefore; we hereby request approval for further suspension of field operations until a chance for a return-on-investment possibility can be reasonably anticipated, or until the last day of operations authorized by the U.S. Forest Service for 1993, being **October 31, 1993.**
