OIL CON. DIV.

Administrative Order NSL-3162

Dear Mr. Kendrick:

Reference is made to your application on behalf of the operator Evergreen Operating Corporation by letter dated September 4, 1992 for a non-standard coal gas well location for the Schalk 32 Well No. 2 to be located 560 feet from the South line and 1800 feet from the West line (Unit N) of Section 32, Township 31 North, Range 4 West, NMPM, Basin Fruitland Coal (Gas) Pool, Rio Arriba County, New Mexico. The S/2 of said Section 32 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, as amended, the above-described unorthodox coal gas well location is hereby approved.

Sincerely.

Re: Application for Non-Standard Location

Evergreen Operating Corporation

Schalk 32 #2

560'FSL 1800'FWL Sec. 32 - T 31 N - R 4 W

Basin Fruitland Coal Gas Pool

Rio Arriba County, New Mexico

#### Gentlemen:

We, on behalf of Evergreen Operating Corporation, hereby make application for approval of the location of the Schalk 32 #2 well to be located 560' FSL 1800' FEL of Section 32 Township 31 North, Range 4 West, Basin Fruitland Coal Gas Pool, Rio Arriba County, New Mexico.

The reason for the non-standard location is because of topography and at the request of the U.S. Forest Service to avoid further damage to the environment and wildlife habitat.

We believe that directional drilling should not be required because a beam pump and rods may be required to lift water from the wellbore to sustain production.

The distances between wells is within the footage parameters required by Order R-8759.

The attached exhibits show the situation at the location and surrounding area.

It is our belief that the information contained in this application is true and correct according to the information available to us.

All offset operators and lease owners are being notified by certified mail at this mailing. The Return Receipt Cards will be provided when they are returned.

If further information is needed, please contact us.

Yours very truly,

Enclosures

### **ON-SITE FIELD INSPECTION**

# Evergreen Operating Corporation Schalk 32 #2

560' FSL 1800' FWL Sec. 32 - T 31 N - R 4 W Lease No. NM-23044 Basin Fruitland Coal Gas Pool Rio Arriba County, New Mexico

During our On-Site Inspection, we found the following to exist:

- The location is within the Carson National Forest.
- The terrain in the area is severe.
- The location was staked according to the instructions we received earlier from the US Forest Service with respect to avoiding unnecessary road construction, excessive cuts and fills, excessive timber removal, and other ecological damage.
- The location does not crowd any drill tract inside or outside of Section 32 according to the footage requirements in Order R-8768.
- The location is satisfactory to the Forest Service.
