Re: Lee M. Crane
Martin #3-N 34-30N-11
recent operator name change.

Please check if this was a well
number change also. We have in
file a #1-N located 1100/5 E,
1540/W drilled July 31, 1933; lat.
est report in file is a Notice of
Intention to Plug dated 9-11-51.

BY A.R. Whitman

DATE 8-19-66

AP Whitman:
The attached card is the
only record we have of the well
in question - As you see it
was the P.B. English #3
the well
which you refer was
drilled by Phillips + McLaughlin.
Write yourself a new well
file + put in W. Crane's
C-104 in it.

Re: Leo M. Crane

Martin # 3-N 34-30N-11

We need a copy of a C-101, C-102 & C-105: Notice of Re-entry, a plat showing the location of subject well & finally a well log showing what all work was done. This suggestion is being made in an effort to secure a complete file of subject well.

BY A. R. Williams Thanking you,

Dear Ed,

I also would like to have a file on this well. F.B. English ^{it} card ~~has~~ passed it on to his records.

Took all the information with him the card I mailed you is the only available information on the well.

As you see it was abandoned with the casing in the hole. See Crane is using gas from it and accumulates about 100 barrels of it a year which he had to make legal. This is why he just up board

& requested + allowed to. Just wanted a file for the C-104 & file it.
