Re: Aztec Oil & Gas Co.  
McGrath #2  
N-34-30N-12W

Dear Mr. Van Ryan:

During a recent field inspection of the location of the subject well it was noted that the well has a casing failure.

All vegetation near the well has been killed by the gas vented to the surface.

Rule 108 requires the operator of a well with defective casing to proceed with diligence to repair or to plug and abandon the well.

File form C-103 setting out your plan of action prior to any field activity for this remedial work.

If there are questions, please contact us.

Yours very truly,

*A. R. Kendrick*
