RECEIVED
FEB 13 1963
GEOLOGICAL SURVEY
ST. 3

The elevation of the derrick floor above sea level is 9-5 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

[Handwritten details of work, including casing sizes and depths, are present but mostly illegible due to fading and handwriting.]

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
