Mr. Emery C. Arnold, District Supervisor
Oil Conservation Commission
Box 697
Aztec, New Mexico

Dear Sir:

This is to inform you that the El Paso Natural Gas Company intends to dual complete our Ludwick #7 Well located in the SW/4 of Section 31, Township 30 North, Range 10 West.

This well will be dualled in the Pictured Cliff formation and the Mesa Verde, both formations being within bounds of the Aztec Pictured Cliff Pool and the Blanco Mesa Verde Pool. The dual completion will be a normal tubing annulus completion with a packer separating the production zones. Upon completion and running of Initial Potential and packer leakage tests, we will request administrative approval from the Oil Conservation Commission.

Yours very truly,

E. J. Coel
Senior Petroleum Engineer
