Re: Hyper #2 Well
B.M.N.S. Co., Operator
Fulcher-Kutz P.C. Pool
Sec 29-30N-12W

Gentlemen:

In compliance with your letter of March 30, 1955, and memorandum and orders relative to non-standard gas proration units in the Northwestern Gas Pools, the B.M.N.S. Company submits the following information:

1. The #2 Hyper well is located 660 feet North of the South line and 1700 feet West of the East line of Section 29, Township 30 North, Range 12 West, N.M.P.M., Unit "0", in the Fulcher Kutz Pictured Cliffs Gas Pool.

2. The non-standard unit comprises 40 acres and said well was completed January 11, 1947, at which time present spacing requirements were not in effect. This well is connected to the Southern Union Gas Company line.

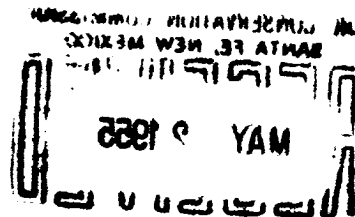

3. The proposed non-standard unit lies wholly within a single governmental section.

4. The entire unit may reasonably be presumed to be productive of gas.

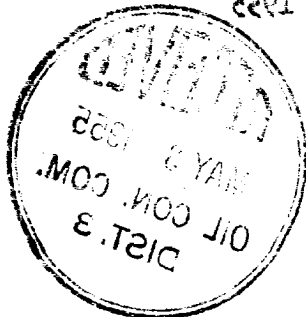

5. A copy of this letter, advising of the intent to form this non-standard unit, is being sent to all offset operators by registered mail.

6. Plats showing location of well and of offset operators are attached.

The writer respectfully requests consideration of this application for approval of the above non-standard unit under provisions

B.L.M. (Bureau of Land Management)
April 21, 1955

In compliance with your letter of March 30, 1955, and
transmission and orders relative to non-standard gas protection units in
the Northern Gas Pool, the B.L.M. Company submits the following
information:

1. The #2 Upper well is located 600 feet North of the South
line and 1700 feet West of the East line of Section 29, Township 30 North,
Range 12 West, N.M.P.M., Unit "O", in the Pecos River Gilt
Gas Pool.

2. The non-standard unit comprises 40 acres and said well
was completed January 11, 1947, at which time present spacing requirements
were not in effect. This well is connected to the Southern Union Gas
Company line.

3. The proposed non-standard unit lies wholly within a single
Governmental section.

4. The entire unit may reasonably be presumed to be productive

of gas.

5. A copy of this letter, advising of the intent to form
this non-standard unit, is being sent to all oil and gas operators by registered
mail.

6. Maps showing location of well and of test operators are

attached.

The writer respectfully requests consideration of this
application for approval of the above non-standard unit under provisions
