Gentlemen:

Reference is made to your application dated September 28, 1972, for administrative approval of an exception to Rule 107 (d) to permit the production of Blanco-Mesaverde gas through the 4 1/2-inch casing of your Florence Well No. 29, located in Unit K of Section 25, Township 30 North, Range 8 West, San Juan County, New Mexico.

Inasmuch as this well produces essentially dry gas with a very high gas-oil ratio, Tenneco is hereby authorized to produce the subject well as proposed, provided however, that this authority may be rescinded at any time that it appears that such method of production may cause waste.

Very truly yours,
