(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to a casing leak and non-production, it is planned to plug and abandon this well in the following manner:

Spot a 50 sk. cement plug to cover Dakota perforations (5820-6011').

Perforate squeeze hole opposite the Mesa Verde and spot 50 sks. cement at hole and pressure displace 30 sks. through hole

Shoot off 4 1/2" casing at free point and spot a 75 sks. cement plug on casing stub (plug to cover the Pictured Cliffs).

Spot a 25 sk. cement plug at the base of the surface pipe.

Spot a 15 sk. cement plug at the surface with a Plug & Abandoned marker, clean location.

18. I hereby certify that the foregoing is true and correct
