Hesperus, Colorado*

*Re: B.M.N.S. #1 Waggoner
K-29-30N-12W*

Dear "Shortie":

Our records do not reflect that the above well was ever plugged and abandoned. I was under the impression that you plugged this well a couple of years ago; however you evidently neglected to send a plugging report on it or if you did it has been lost in the shuffle.

We are enclosing Forms C-103. If the well has been plugged, please submit this form in triplicate indicating where the plugs were set.

If the well has not been plugged please come down and make arrangements to get it plugged so that we can get your bond cancelled.

Yours very truly

*Emery C. Arnold
