Re: BMNS #1 Waggner
SU 29-30-12

Dear Emery,

The allowable on any well connected can only be cancelled for the following reasons,

1. Notice of Pipeline Disconnection.
2. Written Request by the Operator for cancellation of allowable.

If one of the two situations is not accomplished then all we can do is carry the allowable on the schedule until the end of the second proration period and cancel it out.

Will you see what you can do in this regard, as I would like to get it off the schedule.

Very truly yours,

P. S. We need a disconnect notice from you on the El Paso Natural Gas 28-5 #6.
