Form C-116  
Gas-Oil Ratio

Mr. Emery C. Arnold  
Director, District #3  
Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico

Dear Sir:

We are baffled to understand how our C-116 report apparently goes astray each year.

This year, both of our New Mexico wells are shut down and we, of course, could run no tests. However, the Form C-116 was prepared on the Pan Am. Federal #1, 19-30-15, and mailed to your office on June 24, 1966. It was enclosed in a separate envelope, but posted at the same moment as were the regular monthly reports to your office, such as C-115 etc.

I wonder if there is a possibility that the gas-oil ratio reports are getting into the wrong office, perhaps the main office or the district office in Santa Fe?

We realize that there is no production involved this year, but last year we were penalized and through no fault of ours - so it would be interesting to have the mystery cleared up. We must be addressing the monthly reports correctly since we have not heard otherwise.

Sincerely yours

*Marie G. Wright*

Marie G. Wright  
Secretary to Mr. Kaye
