17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Permanent marker was labeled with lease number SF 080508A.  
The access road was not blocked off, ripped, waterbarred and leveled at junction with main road because the access road was an existing road used before the well was drilled, and is now being used by livestock owners in the area. If blocked off, individuals would simply go around. Please consider this when approving for final abandonment.
