Mr. E. C. Arnold
Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico

Dear Mr. Arnold

The El Paso Natural Gas Company well King No. 1, in the NE 22-30-10, was recently tested in Area No. 26. This well was previously tested in Area No. 7 this year and it was later learned that there had been a plate change during the 2nd week of conditioning. Therefore please void the test from Area No. 7 (SIP May 6, 1958) and replace it with the latest test which has been submitted to you.

It has also been noted that we were unable to obtain 25% drawdown on this test. I would appreciate it if you would put a note on the test sheet as it has been submitted to you.

Yours very truly,

Tom B. Grant
