well file

May 21, 1962

*Elliott Production Company
Box 1355
Roswell, New Mexico*

Attn: Mr. Frank O. Elliott, Vice-President

Dear Sir:

Reference is made to your letter of May 18, 1962, inquiring about allowable for your #1-A Hagood Federal located in Section 24-30N-14W.

Supplement No. 6949 was written in this office sometime ago and forwarded to Santa Fe for processing. This supplement should straighten the matter out so far as this well is concerned, as it will change the allowable to the 1961 deliverability figure effective February 1, 1962. If you do not receive your copy of the Supplement soon and we can be of any assistance, please contact us.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*

Re: Hagood Federal #1A
Sec. 24, Twp. 30N.,
Rge. 14W.

Gentlemen:

It is noted in the San Juan Basin Gas Proration Schedules that the above referenced well has not been assigned a current monthly allowable since the month of January and consequently the ending net allowable continues to show the well to be over produced. It is also noted that there is no figure shown under the deliverability column and our records show that the required deliverability test was filed on this well during the latter part of February, which was in compliance with an Exception Order dated March 2, 1962, allowing us until April 1st, 1962 to file the required deliverability test.

It would be appreciated if you would advise us concerning the above matter.

Very truly yours,

ELLIOTT PRODUCTION COMPANY
