ABANDONMENT\*

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

A hole apparently has come in the casing at an estimated depth of 3,000' to 3,200',  
dumping mud & water into the well bore killing the well.

We propose to circulate out the mud with fresh water, set a packer at 6,200' and  
circulate Baroid Casing Pack to surface, then open Dakota gas through packer to  
tubing and kick well off.

18. I hereby certify that the foregoing is true and correct
