State of New Mexico Oil Conservation Commission 1000 Rio Brazos Road Aztec, New Mexico ATTN: Mr. Kendrick

Engineer, Districk # 3

Dear Mr. Kendrick:

Re: Operator's Monthly Report

(Form C-115)

With reference to your letter of September 6, 1962 informing us that Blancett #2 well is to be shut-in until further notice of the commission due to being late with the monthly report (Form C-115), we request that you please re-open the well as the reports were mailed September 4, 1962.

The delay in submitting the reports was due to the fact that I was on two weeks active duty with my reserve unit during the period 19 August to 2 September 1962 and being a small organization there was not anyone to complete the reports until I returned.

Thanking you in advance.

Very truly yours,

Franklin Steel Products

Frank W. W. Watson
