The diagram illustrates the experimental setup. A participant is seated at a table, looking at a video screen. A video camera is positioned above the screen to capture the participant's hand movements. A light source is located to the left of the screen. A target is marked on the screen. The participant's hand is positioned near the target. The setup is used to study the effects of target size and distance on movement time.

1. General Remarks - The first part of the report deals with the general situation of the country and the position of the various groups. It is a very good summary of the situation and is well written.
