		AILS OF W			
It is intended the parties of the pa	depths to objective in the state of the stat	sands; show s	sizes, weights	topt proposed work)	rotery
It is intended the parties of the pa	depths to objective indicates comments by section with two querts	sands; show s	sizes, weights	topt proposed work)	rotery
It is intended distribute, drilling the parties with approximate Casing Progress as	depths to objective indicates comments by section with two querts	sands; show s	sizes, weights	topt proposed work)	rotery
It is intended the parties of the parties with approximate Casing Progress as 9-5/8" at 100° w	depths to objective in a section with two quarts follows:	sands; show s mist and all sas circu of S.H.G.	sizes, weights  other importantion, a	topt proposed work)	rotery
It is intended with the parties with approximate Casing Progress as 9-5/8" at 100° w	depths to objective indifficements of section with the quarte fellows:	sands; show s mist and all sas circu of S.H.G.	sizes, weights  other importantion, a	topt proposed work)	rotery
It is imbanded with cols, drilling the partie with approximate Casing Program as 9-5/8" at 100° w	depths to objective in a section with two quarts follows:	sands; show s THE CATE OF S. H. G.	sizes, weights other importantion, a	tent proposed work and to shoot the Total days	rotery
It is imbanded the parties of the parties with approximate Casing Program as 9-5/8" at 100° w	depths to objective indifficements.  y section with the parts.  Follows:  the count to dith 300 seeks.  of Section 14 an of work must recommend to the count of t	sands; show s This care agas circu of S.N.G. Surface. Fagular ce	sizes, weights  of the important on the per foot.	tent proposed workling to shoot the Total Gaptie	rotary 2 Man- 55241.
It is intended distribute, drilling the parties with approximate comments of the parties of the	depths to objective incidence of section with two quarts.  Ith count to dith 300 seeks of Section 14 an of work must reconced.  AL CAS COMPANY	sands; show so circular con S. H. G.  Surface.  Is dedicate eive approval	sizes, weights  station, a  cer foct.  ed to thi  in writing by	tent proposed works and to shoot the fotal depth well. the Geological Surv	rotary 2 Man- 55241.
It is intended did tools, drilling the particle with approximate Casing Program as 9-5/8" at 100° with 100	depths to objective indicate comments. It is exection with ity two quarts. Ith count to dith 300 sacks of Section 14 an of work must reconneced.  AL CAS COMPANY	sands; show so circular con S. H. G.  Surface.  Is dedicate eive approval	sizes, weights  station, a  cer foct.  ed to thi  in writing by	tent proposed works and to shoot the fotal depth well. the Geological Surv	rotary 2 Man- 55241.
It is intended did to le, drilling the particle with approximate Casing Progress as 9-5/8" at 100° with a 4619° with a 461	depths to objective in a control company by section with ly two quarts.  Ith exact to dith 300 seeks of Section 14 an of work must reconced.  AL CAS COMPANY	sands; show so the sands; show so the sands; show so the sands of the	sizes, weights  station, a  cer foct.  ed to thi  in writing by	tent proposed works and to shoot the fotal depth well. the Geological Surv	rotary 2 Man- 55241.
Cosing Program as  9-5/8" at 100'  7 at 4619'  I understand that this pla operations may be comm  EL PASO HATTER	depths to objective in a control company by section with ly two quarts.  Ith exact to dith 300 seeks of Section 14 an of work must reconced.  AL CAS COMPANY	sands; show so the sands; show so the sands; show so the sands of the	sizes, weights  strain important for foot.  ed to this in writing by	tent proposed works and to shoot the fotal depth well. the Geological Surv	rotary
