(NOTE: Report results of multiple completion or zone change on Form 9-331-C)

(other) X-Repair casing, if possible; Restore well to production.

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well was shut-in in 1969 when a casing problem caused it to produce mud and water, with no gas. We propose to pull the tubing to investigate the casing problem, and, if the casing can be repaired, test the well in order to consider restoring it to production.

NOTE: This Sundry Notice is in reply to MMS letter dated 5-24-82 (Mr. John L. Keller for James F. Sims), Office of the Secretary, Drawer 600, Farmington, New Mexico 87401.
