Attn: Mr. George Higginbotham

Dear Sir:

Reference is made to our original correspondence regarding the apparent casing failure on your #3 State well located in the NE₄ Section 16-30N-9W.

As the leak in the casing in this well was discovered in July, 1961, we believe that sufficient time has elapsed for the commencement of remedial work on this well. We are, therefore, directing that actual work be commenced prior to December 10, 1961.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
