DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate muddling jobs, cementing points, and all other important proposed work)

It is intended to change plans in the following manner:

1. To drill a directional hole approximately 100' from the vertical at bottom, to shoot this hole and clean out.
2. To drill a vertical hole through the Mesaverde also, and to shoot and clean out this hole.

Gas circulation used throughout.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
