*Dear Sir:*

*From your letter of February 2, 1959 we believe that there is a misunderstanding regarding information which has not been filed on the above well.*

*In order to make our records complete we need two copies of Federal Well Log, Form 9-330 on the above well rather than the electric log as you have indicated.*

*Yours very truly*

Dear Mr. Hoover:

Re: New Mexico Office of Conservation Commission  
Investigation of Wildlife Trafficking

Dear Sir:

Very recently, on January 2, 1977, we received information that a man, identified as "John Doe", had been killed on the above named.

In order to make our records complete we need to know if the above named "John Doe" is the same person as the one who was killed on the above named.

Very truly yours,

Director, New Mexico Office of Conservation Commission

Gentlemen:

Our records indicate that a copy of the electrical well log was submitted to your office on the subject well, prior to the time it was officially plugged. *filed from 1230*

We are, however, forwarding an additional copy of this log to the U.S.G.S. office in Farmington, as requested in your letter of January 28, for your files, in the event we are incorrect.

Please accept our apologies for any inconvenience you may have incurred here from.

Yours truly,

ARIZONA EXPLORATIONS, INC.
