DETAILS OF WORK

(State nature of and expected depths to objective sands; show slugs, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

I set a plug from 800 to 940' by pumping 15 sacks of cement. I set a plug from surface to 100' by pumping 10 sacks of cement. I set the day hole marker in the surface casing.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
