*Re: Bush Drilling Co. #1 Navajo-Bush  
1320' from North Line; 600' from  
west line, Section 14-30N-17W*

*Gentlemen:*

*The location of subject well is a non-standard location. There is no provision in our spacing rules which allows drilling on quarter-quarter section lines. Subject well is not to be produced until non-standard location authorization has been acquired from our Santa Fe Office.*

*Please see rule 104 of the enclosed Rules and Regulations.*

*Yours very truly*
