Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Att: Mr. Elvis A. Uta

Dear Elvis:

I have received a copy of a letter you wrote Petro-Atlas Corporation exempting their #1 Hazel Belack well in Unit O Section 10-3CN-11W from annual deliverability test. You state that since the deliverability was only 55 MCF you see no reason for not exempting this well from further deliverability test.'

I note in checking the schedule that there are any number of other wells in the Aztec Pictured Cliffs Pool and other pools which have deliverabilities of 55 MCF and less which are not exempt wells. It would appear to me that if exemptions are made it might be wise to establish some procedure other than waiting for the operator to request that a well be exempt, as some operators may not get around to requesting exemptions.

I would appreciate hearing any thoughts you have on the matter.

Yours very truly

Emery C. Arnold
Supervisor, District #3
