(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

At the request of the fee surface owner we wish permission to change the position of the access road into the location. This request is to be entered as an addendum to the original ATD. The present access road enters the location at an approx. 45 degree angle at the northwest corner of the well pad where it joins an existing road which is approx. 175' from and paralleling the north edge of the well pad. It is proposed to close the original access road and rehabilitate it to near original state including reseeding. It is requested permission to construct a new access road ~~xxx~~ from the center of the north line of the well pad to the existing road which ~~xxxxxxx~~ parallels the north line of the well pad. The new road will be approx. 50' wide and approx. 175' long.
