Gentlemen:

This will acknowledge your letter of November 17, 1961 advising that Juan Moya had not responded to the order issued to him to plug the subject well. The bonding company has agreed to proceed with arrangements for the plugging and I have contacted Frank Yockey asking him to meet with you and obtain instructions for the plugging operation.

Because of adverse weather conditions and heavy snows, Mr. Yockey had no idea when he could move into the location. I am hoping that we can obtain an extension of time if necessary until the location becomes accessible to the equipment required.

Very truly yours,
