Re: Well Plugging, San Juan
County, New Mexico

Gentlemen:

Pursuant to information furnished us by Mr. Emery C. Arnold, Supervisor, District III, Oil Conservation Commission in Astec, New Mexico, we hereby make demand upon you to properly plug the M. J. Florance No. 1 Florance Pooled Unit Well, located 1980 feet from the South line and 1760 feet from the East line of Section 8, Township 30 North, Range 11 West, NMPN, San Juan County, New Mexico. Mr. Arnold advises us that this well was originally completed as a producing gas well but has shown no production for the last several years, is now abandoned, and should therefore be plugged in order to prevent waste and protect correlative rights in this area.

Unless this well is satisfactorily plugged on or before October 1, 1962, the Commission will be forced to take appropriate legal action to assure plugging the same.

Mr. Arnold must be contacted for an appropriate plugging program and must be given an opportunity to witness the plugging of the well.

Very truly yours,

JAMES M. DURRETT, Jr.,
Special Assistant Attorney General

JMD/esr

cc: Mr. Emery C. Arnold, Supervisor
District III, Oil Conservation Commission
