ABANDONMENT\*

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

The well was shut in 1-1-68 because it was only producing 2 BOPD and 16 BWPD, and thus was not economical to operate. U.S.G.S. approval was dated 12-22-67. This well is in a large unit which is under waterflood operations. Future plans are to conduct waterflood and tertiary recovery studies. These studies may result in a revised waterflood plan or in a tertiary recovery program that may require the use of this well in order to recover the maximum amount of oil from this reservoir.

TEMPORARY ABANDONMENT  
EXPIRES

JUN 1 1977

Two copies sent to New Mexico Oil Conservation Commission

18. I hereby certify that the foregoing is true and correct
