DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

E. E. Elliott "C" well No. 2. On January 2, 1959, 4-1/2" casing was landed at 3060' with 700 sacks 8 1/2 gal cement with 2 pounds Tuff Plug per sack, followed by 50 sacks neat cement. Released rotary rig January 2, 1959. Moved in completion unit on January 11, 1959, and tested 4-1/2" casing with 3000 pounds pressure which held with no drop in pressure.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
