Mr. R. R. Spurrier
New Mexico Oil Conservation Commission
State Capitol Building
Santa Fe, New Mexico

Dear Mr. Spurrier:

We have recently asked for your permission to drill our Crandall #1 on an irregular location 1900 feet from the North line and 1712 feet from the West line of Section 8, Township 30 North, Range 11 West, San Juan County, New Mexico, in the Aztec Pictured Cliffs Pool.

The location we have applied for is as near to being an orthodox location as we can economically make due to the topography in this area. There is an irrigation ditch running through the area which prevents our moving any further North without the construction of either a very expensive bridge or road.

Thank you very much for your consideration of our request in this matter. Your approval of this request will be very much appreciated.

Yours very truly,

W. P. Carr
