Dear Mr. Salmon:

The bradenhead test which was conducted on your Nye #13 well in D-12-30N-11W on May 22, 1972, indicates that the production casing has failed.

Please take immediate remedial action to repair the casing in this well.

Federal Form 9-330, Sundry Report, should be filed with the U. S. G. S. office in Farmington setting out proposed remedial action prior to commencing work.

Yours very truly,
