DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Request permission to sand oil fracture existing perforations 1605'-1640' Schlumberger with 10,000# 10/20 sand in 10,000 gallons lease crude. Also request permission to perforate 1510'-1536' Schlumberger and sand oil fracture perforations with 5,000# 10/20 sand in 5,000 gallons lease crude. The purpose of this request is to dual complete this well in the Upper & Lower Gallup.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
