Bradenhead Testing

Dear Mr. Osborne:

This letter will confirm our telephone conversation this morning that the bottom spool on this well was never installed. Meridian will not be required to move a rig onto this well and install a spool to test the intermediate casing as long as the bradenhead pressure remains dead. Please continue to conduct your Bradenhead testing on this well once every three years, testing the bradenhead and exempting the intermediate.

If you have any questions please feel free to contact me.

Yours Truly,

Dianna K. Fairhurst

Dianna K. Fairhurst
