Central Resources, Inc. requests approval for Long Term Shut-In status for the subject well. This well has passed an MIT in 1998 and well status has not changed. I have attached a well bore diagram for your use and information. The well is areally proximal to a study to develop the "C" zone potential of the unit. We wish to preserve this well for possible use in the development of the zone. We will have made a decision with in a year and will propose plugging this well, if we can not use it to develop the remaining potential of the property.

THIS APPROVAL EXPIRES JUL 01 2000

14. I hereby certify that the foregoing is true and correct
