

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

July 11, 1961

Mr. Ken Blackford
Box 108
Dubbock, Texas

Dear Sir:

On June 29, 1961 we received Notice of Intention to Drill for a well located 1430 feet from the North line and 660 feet from the West line of Section 3-30N-17W. This well was designated as the #1 Navajo. Our files also reflect that on June 28, 1961 your company plugged a well in the same 40 acres also designated as the #1 Navajo. We also noted that on November 4, 1957 your company plugged a well located in the SW $\frac{1}{4}$ Section 1-30N-17W designated as the #1 Navajo. We also note that you have a plugged and abandoned well in the NE $\frac{1}{4}$ Section 35-31N-17W designated as the #2 Navajo, which was completed November 23, 1957.

To prevent confusion in well identification we are, therefore, pending your approval, changing the well numbers on the above named wells as follows:

1980/S; 1980/W, Section 1-30N-17W----#1 Navajo
NE $\frac{1}{4}$ Section 35-31N-17W----#2 Navajo
1980/N; 660/W Section 3-30N-17W----#3 Navajo
1430/N; 660/W, Section 3-30N-17W----#4 Navajo.

We would also appreciate it very much if you would designate the next Navajo well spudded as the #5 Navajo. Please indicate if you approve of the above numbering system and if so all information filed on the latest well should be filed as the #4 Navajo well.

Yours very truly
