Re: Tenneco Oil Company
Prichard #2, H-1-30N-9W
Blanco Mesaverde Pool

Dear Mr. Massey:

We were contacted recently by Mr. Neil Tefteller regarding the annual deliverability test of the subject well after remedial action.

The data obtained during the test resulted in an impossible answer to the test calculation. Therefore the well must be retested in an effort to obtain usable data.

The allowable change shall be effective April 28, 1965, provided that the deliverability retest report is received in this office on or before November 1, 1965.

If we can be of assistance, please contact us.

Yours very truly

ARK:ks
