Re: Horseshoe Gallup Unit Wells
Sec. 2, T30N-R60W
Rio Arriba County, New Mexico

Dear Mr. Chavez:

In reply to your recent phone inquiry regarding wells located in the subject section, we have examined our records concerning the unit wells located in the SW/4, NW/4 of Sec. 2. ARCo's records show that the State "H" 1-X was taken into the unit at its formation. This well was renamed Horseshoe Gallup Unit No. 239 and is located 2191' FNL - 331' FWL, Sec. 2-T30N-R60W. The well was operated by a company named "Eproc" prior to unitization. In addition, there is an apparent junked hole located 1980' FNL - 660' FWL, Sec. 2-T30N-R60W. This well was drilled and junked prior to unitization and was not taken into the unit. ARCo has no record of the operator that drilled this well.
