X

SUBSEQUENT REPORT OF:

WATER SHUT-OFF ☐FRACTURE TREATMENT ☐SHOOTING OR ACIDIZING ☐(Other) ☐REPAIRING WELL ☐ALTERING CASING ☐ABANDONMENT* ☐

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to cease continuous operation of this well as presently uneconomical to operate. Well is producing / BOPD and 328WPD. We do expect to periodically test the well to detect any significant change in its producing capability. If this change occurs, the well will be returned to producing status.

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, indicated on Federal and Indian lands pursuant to applicable Federal law and regulations (and/or approved or accepted by any State, or all lands in a State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be furnished by the Federal office for specific instructions.

Item 4: If there are no applicable State requirements, locations on Federal land should be described in accordance with Federal requirements. Permit local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include reasons for the abandonment (e.g., lack of economic viability, etc.). In addition, such proposals and reports should include reasons for the abandonment (e.g., lack of economic viability, etc.). fluid contents not sealed off by cement or otherwise; depth (top and bottom) and method of placement of cement plugs; and other material placed between and above plugs; amount, size, method of packing of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
