1000 Rio Brazos Road
Aztec, New Mexico

Attn: Mr. Emery Arnold

Gentlemen:

Well #1-4, Blanco 30-12, a dual Fruitland-Mesaverde gas well located in the NE/4 of Section 4, T-30-N, R-12-W, San Juan County, is scheduled for shut-in pressure test from March 15 to March 22 following annual deliverability test.

After the initial week of shut-in for both zones, the Fruitland formation will be produced for one week with the Mesaverde remaining shut in. Both zones will be shut in during the third week, and the Mesaverde will be produced the fourth week with the Fruitland remaining shut in.

It is proposed to accomplish our annual packer leakage test in accordance with this schedule.

Very truly yours,

NORTHWEST PRODUCTION CORPORATION
