Attn: Mr. William C. Russell, President

Dear Sir:

We have received two copies of Federal Notice of Intention to Drill for your #61 Lunt well located in The NE¹ Section 6-30N-13W. You have not indicated on the Form C-128 which half-section of Section 6 you wish to dedicate to this well.

As this well is also located in an adjoining section to producing Gallup reservoir it will be required that you use sufficient cement to cover the top of the Gallup formation. We are returning your Notice of Intention to Drill in order that these amendments may be made.

Yours very truly

Emery C. Arnold
