Farmington, NM 87499

Re: Moncrief Com A #2      A-2-30N-13W

Dear Loren:

The referenced well was Plugged and Abandoned 6-1-82. A recent inspection reveals the location has not been restored. The pit has not been filled; the anchors have not been pulled; and the location is junky. Please tend to this work as soon as possible so we can approve the P & A, and place the well in its proper status. Inform this office on form C-103 as soon as the work has been completed.

Yours truly,

A handwritten signature in cursive script, appearing to read "Charles Gholson".

Charles Gholson  
Deputy Oil and Gas Inspector
