Re: Malco Copple #2

Dear Mr. Reeves:

Temporary approval is granted to produce this well through tubing set at approximately 1500', starting the date which the tubing is raised. A sundry of when this work begins is required by this office.

To produce in this manner longer, will be in violation of Rule 107. Rule 107 requires that the tubing be set no more than 250' above the top of the pay.

If you have any questions, please call.

Sincerely,
