15. ELEVATIONS (SHOW DF, KDB, AND WD)

6409 DF

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was drilled and completed in June of 1953. Casing was set at the top of the Cliff House formation at 3004' and cemented with 125 sacks. The well was then drilled with gas to 3643' and completed as an open hole Mesaverde well. Tubing (2-3/8", 4.7# J-55) was run into the open hole. The well has been on production since that time. This open hole has gravel in. We wish to plug and abandon this well.

See attachment.
