If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Phillips Petroleum would like to extend the SI status of the well till 12/31/96. Due to budgetary restraints and work load we weren't able to effectively resolve plans for this well. A casing integrity test was done in June, 1994. This well is still a candidate for sidetrack or P&A.
