PACKER-SETTING AFFIDAVIT  
(Dual Completions)

STATE OF New Mexico )  
County of San Juan ) ss

DeLasse Loos, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Blackwood & Nichols Company in the capacity of Field Superintendent and as such is its authorized agent.

That on September 17, 19 59, he personally supervised the setting of a Baker Model 415-D Production Packer in Blackwood & Nichols Company's  
(Make and Type of Packer) (Operator)

Northeast Blanco Unit Well No. 57-21, located in Unit  
(lease)  
Letter B, Section 21, Township 31N, Range 7W, NMPM,  
San Juan County, New Mexico.

That said packer was set at a subsurface depth of 5813 feet,  
said depth measurement having been furnished by B J Service, Inc.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
