March 31, 1954Well No. 10 is located 253 ft. from N line and 40 ft. from E line of sec. 17

17 (1/4 Sec. and Sec. No.) 34 (Twp.) 1 (Range) 10 (Meridian)
Utah (Field) San Juan (County or Subdivision) San Juan Co. (State or Territory)

The elevation of the derrick floor above sea level is 5555 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is intended:

1. To gas drill a 5" directional well starting in the Cliff House formation, and through the Cliff House formation, and to treat the producing interval with the Perm-Dil process. The hole will be deviated approximately 20°.
2. To gas drill a 5" straight well starting in the Cliff House formation and through the Cliff House formation, and to treat the producing interval with the Perm-Dil process.

This work is for exploration purposes.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
