13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The following revisions to the procedure outlined in our 8/15/96 sundry are being proposed:

- 1) The 7" retainer will be set at +/- 5300' instead of 5100'.
- 2) A Baker DW-1 packer will be set at +/- 4000' instead of a CIBP set at 3200'.
- 3) The new TD will be approx. 6050' instead of 5900'.

These changes lower the kickout point to below the PC top, therefore proper plugging of the PC can occur at a later date.
